Fascination meets character: a new top model

Available now: the AURUS OLED-TV

Zirndorf, 16. February 2022

Exemplary and different. Premium TV manufacturer Metz is extending its OLED product range with the addition of the AURUS - available now. This superbly equipped television knows how to impress with two screen sizes, sophisticated image processing technology and numerous convenient features, and provides the perfect introduction to the unique world of Metz OLED products.

The long-established Franconian TV manufacturer is announcing the sales launch of its Metz AURUS OLED. From the second half of February 2022, the new model will be available in 48" and 55" from authorised retailers exclusively. As a complement to the popular, successful TOPAS series, the AURUS offers the ideal introduction to the impressive world of OLED products.

Picture.

TV quality Made in Germany meets sophisticated technology in the Aurus: equipped with the unique Metz twin tuner concept, it more than meets the most demanding TV requirements. UHD resolution (3840 x 2160 pixels) ensures hyper-realistic detail. The combination of sophisticated MetzVision image technology and 33 million OLED subpixels that can all be controlled individually brings pictures to life in a magnificent manner. Whether it be films, series or sport - the most modern HDR standards such as Dolby Vision elevate the viewing experience to an unprecedented level, offering impressive contrast and brilliantly vibrant colours.

Sound.

A powerful sound system with six front-facing speakers in two-way construction and bass reflex channel provides excellent sound performance concealed behind an exclusive acoustic fleece. MetzSoundPro technology guarantees clear highs and lows and distinct voice intelligibility.

Features for perfectionists.

A formidable range of functions guarantees limitless TV enjoyment with the AURUS. Various connection options make the AURUS a versatile partner for your home entertainment setup, while the clever operating concept can be adapted to your individual needs, leaving no wish unfulfilled. The AURUS is also pleasing to the eye: distinguished by its own design language and a focus upon high-quality, long-lasting materials, it will fit attractively into any home.
